***Our STEM Classroom Activity Kit
was designed by teachers for
teachers!****

What I really enjoyed about this classroom set was that everything that was needed to understand the unit was in the box. I really enjoyed the convenience of just having to tell students this is what is needed for the lesson or turn to page in your books.

- 5th grade teacher from Los Angeles, CA

My overall impression is that I loved this curriculum. It had the perfect balance of teacher-directed and student-directed learning within each lesson.

- 4th grade teacher from Houston, TX

I would recommend this curriculum and set to another teacher and school. This curriculum has so much potential and hands-on activities which allows students to explore different concepts and be successful in science.

- 3rd Grade Teacher from St. Charles, IL
